

## MILEAGE ADJUSTMENTS FOR 5th DISTRICT ID

January 7, 1998

L/R 1340.40

Mr. S. W. Parker  
General Chairman, BLE  
707 W. Georgia Ave.  
Vivian, LA 71082

Dear Sir:

This will confirm our telephone conversation this date, wherein you requested that the mileage adjustment window for adjusting pool crews on the Fifth Subdivision be reduced from 4000-4600 miles to 3800-4200 miles per month for the remaining five months of the six months trail period that began on December 1, 1997.

I advised you that since this was a trail period and not a permanent arrangement, it would not be feasible to change the mileage limits; however, Carrier is agreeable to allow the local chairman to adjust the pool crews on the Fifth Subdivision to the lower side of the range.

If the above meets with your concurrence please so indicate in the space provided and return a copy for our files.

Yours truly,

*K. A. Alexander*
